

Software Technology Parks of India

Interview Preparation Guide

Ministry of Electronics & IT (MeitY) | Government of India

Quick Facts at a Glance

Founded	1991
Type	Autonomous Society under MeitY, Govt. of India
Headquarters	New Delhi (1st Floor, Plate B, East Kidwai Nagar, New Delhi – 110023)
Director General	Shri Arvind Kumar (CEO)
Centres	67 centres 14 Jurisdictional Directorates (59 in Tier-II/III cities)
FY 2024-25 Exports	Rs. 10 lakh crore+ (by STPI-registered units)
FY 2022-23 Exports	Rs. 8,48,398 crore (~50% of national SW exports, 2.3% of GDP)
Export Growth	Rs. 52 crore (1992-93) → Rs. 10 lakh crore+ (2024-25)
CoEs Launched	24 Centres of Entrepreneurship pan-India
Website	www.stpi.in

About STPI

Software Technology Parks of India (STPI) is a premier Science & Technology autonomous society under the Ministry of Electronics and Information Technology (MeitY), Government of India. Established in **1991** by merging three pioneering Software Technology Parks at Bengaluru, Bhubaneswar, and Pune (set up in 1989–90), STPI was created with the primary mandate of promoting software exports and fostering the growth of the IT/ITeS industry across India.

STPI acts as a **single-window facilitation agency**, providing statutory and value-added services to software exporting units. It implements the Software Technology Park (STP) Scheme and the Electronics and Hardware Technology Park (EHTP) Scheme of the Government of India. Over the decades, it has evolved from an export promoter into a full-fledged technology ecosystem builder, nurturing startups, driving R&D, and spearheading India's emergence as a global software product nation.

VISION	MISSION
To make India a Global Information Technology Power and one of the largest generators and exporters of software in the world.	To boost software exports and services from the country by promoting the IT/ITeS industry.

Objectives of STPI

- Promote the development and export of software and software services including IT/ITeS/Bio-IT.
- Provide statutory and other promotional services to exporters by implementing STP/EHTP Schemes and other schemes entrusted by Government.
- Provide data communication services including value-added services to IT/ITeS related industries.
- Promote MSMEs by creating a conducive environment for entrepreneurship in IT/ITeS.
- Establish and manage infrastructure resources — international communication, data centres, incubation facilities — for 100% export-oriented units.
- Undertake export promotional activities: technology assessments, market analysis, workshops, exhibitions, and conferences.
- Facilitate specialised training in niche areas.
- Work closely with State Governments; act as interface between Industry and Government.
- Promote entrepreneurship through incubation programmes, seed funds, IP development, and awareness programmes.
- Promote quality and security standards in the IT industry.
- Work jointly with venture capitalists to provide financial assistance to IT industries.

Key Functions

Statutory Services

Implement STP and EHTP Schemes; provide single-window clearance for 100% export-oriented units.

Infrastructure Management

Establish and manage integrated infrastructure including international communication links, data centres, and incubation facilities.

Export Promotion

Technology assessments, market analysis, seminars, workshops, exhibitions, and conferences to boost exports.

Startup Ecosystem

Build CoEs, incubation labs, and deploy NGIS to support tech startups from ideation to market.

Policy Liaison

Assist State Governments in formulating IT policies; act as Industry-Government interface.

Skill Development

Facilitate specialised training in niche/emerging technology areas.

Financial Functions

Maintain STPI fund; receive grants, fees, donations; invest as prescribed by Government.

Project Management

Provide PMC (Project Management & Consultancy) services nationally and internationally.

Tier-II/III City Focus

Establish STPI presence in secondary and tertiary locations to disperse IT growth beyond metros.

Services Portfolio

Statutory Services (STP & EHTP Schemes)	• 100% export-oriented scheme for computer software development and export. • Integrates 100% EOU and EPZ concepts with Science/Technology Park model. • Single-point contact; approvals under single-window clearance. • STP unit can be set up anywhere in India; projects < Rs. 100 million cleared by jurisdictional STPI. • EHTP: export of electronic hardware — manufacture, R&D, testing, calibration.
Internet / DataCom Services	• High-bandwidth internet connectivity and value-added data communication services to IT/ITeS units.
Incubation Services	• Ready-to-use workspace with workstations, cubicles, manager cabins, conference halls. • No gestation period, no capital investment required; units can start from Day 1. • Available for startups, aspiring entrepreneurs, and MNCs.
Data Centre Services	• 5 Tier-3 data centres providing secure, reliable hosting and co-location services.
Cloud Services (Ananta)	• STPI's own cloud platform — Ananta — offering cloud infrastructure to IT units.
Security Audit (VAPT)	• Information Security Audit Services including Vulnerability Assessment & Penetration Testing.
CRO Surveillance Services	• Compliance monitoring and surveillance services for registered units.
PMC Services	• Project Management and Consultancy services at national and international level.
NGIS	• Next Generation Incubation Scheme: Rs. 95.03 Cr budget; seed funding up to Rs. 25 lakh for 300 startups across 12 Tier-II cities.

Startup & Innovation Ecosystem

STPI aspires to be India's largest technology startup ecosystem, transforming the country into a **software product nation** as envisaged under the National Policy on Software Products (NPSP) 2019. It has built a collaborative model engaging Government, Industry, Academia, and other stakeholders to provide end-to-end support to startups pan-India.

24 Centres of Entrepreneurship (CoEs) — Domain-Specific Innovation Hubs

Electropreneur Park — New Delhi	MOTION — Pune
NEURON — Mohali	FinBlue — Chennai
IoT OpenLab — Bengaluru	Apiary — Gurugram
Electropreneur Park — Bhubaneswar	IMAGE — Hyderabad
VARCoE — Bhubaneswar	MedTech CoE — Lucknow
IoT in Agriculture CoE — Guwahati	Animation CoE — Shillong

AR/VR CoE — Imphal	GIS CoE — Itanagar
Gaming Tech CoE — Aizawl	Graphic Design CoE — Kohima
Healthcare Tech CoE — Gangtok	Data Analytics CoE — Agartala
AIC STPI — Bengaluru	FASAL CoE — —
Kalpataru — Vizag	EmTek — Rourkela
Efficiency Augmentation — Bengaluru	FINGLOBE — Gandhinagar (Financial Tech)

Specialised Labs

RF Lab | EV Lab | AV Lab | IoT Lab | MoCap Lab | AI/DA Lab | Innov IoT Lab | CV/AI Lab | ESDM Lab | Health Informatics Lab | MediElectronics Lab | VR/AR Lab | Fintech SandBox | FabLab | SMARTLab | Atal Incubation Centre (AIC)

NGIS — Next Generation Incubation Scheme

A futuristic, comprehensive incubation scheme entrusted by MeitY to STPI. Budget: **Rs. 95.03 crore** over 3 years. Targets **300 startups** with seed funding of up to **Rs. 25 lakh** each. Covers 12 Tier-II cities: Agartala, Bhilai, Bhopal, Bhubaneswar, Dehradun, Guwahati, Jaipur, Lucknow, Prayagraj, Mohali, Patna, and Vijayawada.

SAYUJ — Startup Community Network

A comprehensive resource discovery and networking platform designed to facilitate seamless information exchange between startups, investors, incubators, mentors, and all other stakeholders within the innovation ecosystem.

National Presence — STPI Centres

STPI has grown from **3 centres (1990)** to **67 centres** across India under **14 Jurisdictional Directorates**. Of these, **59 centres are in Tier-II/III cities**, demonstrating STPI's commitment to equitable and inclusive IT-led growth beyond metro cities.

1990	Bengaluru, Bhubaneswar, Pune — the founding three
1991	Thiruvananthapuram, Noida, Gandhinagar, Hyderabad
1995–1999	Chennai, Navi Mumbai, Jaipur, Mohali, Coimbatore, Mysuru, Manipal
2000–2005	Guwahati, Visakhapatnam, Kolkata, Lucknow, Nagpur, Indore, Dehradun, Warangal, Ranchi, Kharagpur...
2006–2015	Siliguri, Shillong, Patna, Gwalior, Aizawl, Gurugram, Surat, and more
2016–2025	Agartala, Goa, Deoghar, Bhopal, Meerut, Kohima, Davanagere, Kochi, Jaipur, Jeypore

Key Achievements & Milestones

Software Exports Growth

Rs. 52 Cr (1992-93) → Rs. 10 lakh Cr+ (2024-25). STPI-registered units account for ~50% of India's total national software exports.

GDP Contribution

STPI-registered exports represent approximately 2.3% of India's GDP.

34 Years of Service

Completed 34 impactful years in 2025. Grew from 3 centres to 67 across all states.

17 lakh sq. ft. Workspace

State-of-the-art workspace infrastructure available across STPI centres pan-India.

5 Tier-3 Data Centres

Secure, resilient, world-class data centre infrastructure.

24 CoEs

Domain-specific Centres of Entrepreneurship covering IoT, AI/ML, FinTech, MedTech, Gaming, AR/VR, Agritech, ESDM, and more.

SANGAM 2025

Organized the grand STPI SANGAM event bringing together startups, investors, and mentors to strengthen the national innovation ecosystem.

Emerging Tech Leadership

Pioneering incubation in Blockchain, AI, ML, Computer Vision, Robotics, RPA, Data Science, Drones, Cybersecurity, and Industry 4.0.

Emerging Technology Focus Areas

• Artificial Intelligence (AI) & Machine Learning (ML)	• Internet of Things (IoT)	• Blockchain
• Augmented Reality (AR) & Virtual Reality (VR)	• Computer Vision	• Robotics & Robotics Process Automation (RPA)
• Animation & Visual Effects	• Data Science & Analytics	• FinTech
• AgriTech	• MedTech	• ACES Mobility (Autonomous, Connected, Electric & Shared)
• ESDM (Electronic System Design & Manufacturing)	• Cybersecurity	• Industry 4.0
• Drone Technology	• Geographic Information Systems (GIS)	• Gaming Technology

- Efficiency Augmentation

Key Government Schemes Implemented by STPI

STP Scheme — Software Technology Park Scheme

100% EOU scheme for software development and export. Single-window clearance. Can be set up anywhere in India. No customs duty on imports.

EHTP Scheme — Electronics Hardware Technology Park

100% export scheme for electronic hardware manufacture, R&D, testing, calibration. Free import of capital goods for export activities.

NGIS — Next Generation Incubation Scheme

Rs. 95.03 Cr scheme; seed funding up to Rs. 25 lakh; 12 Tier-II city incubation hubs; 300+ startups targeted.

BPO Promotion Scheme — BPO Promotion

Promotes Business Process Outsourcing operations from India, extending STPI's facilitation to the broader ITeS sector.

EMC 2.0 — Electronics Manufacturing Cluster 2.0

MeitY scheme for creating electronics manufacturing clusters; STPI plays facilitation/implementation role.

NPSP 2019 — National Policy on Software Products

Aligned with STPI's goal to transform India into a software product nation. STPI supports product development, IPR creation, and market access.

Governance & Structure

Governing Body	Governing Council chaired by Secretary, MeitY
CEO / Head	Director General (currently Shri Arvind Kumar)
Jurisdictional Directorates	14 Jurisdictional Directorates covering all states
Total Centres	67 centres (as of 2025)
Fund Management	STPI Fund: min. 60% in public sector banks / as prescribed by Govt.
Regulatory Compliance	Operates under the Societies Registration Act; policies governed by MeitY
Interface Role	Single-Window Agency for IT exporters; Industry-Government interface

Likely Interview Questions & Key Talking Points

Q1. What is STPI and when was it established?

A: STPI is an autonomous society under MeitY, established in 1991 by merging three STPs at Bengaluru, Bhubaneswar, and Pune. Its mandate is to promote software exports and foster India's IT/ITeS industry.

Q2. What is the STP Scheme?

A: A 100% export-oriented scheme for software development and export. It provides single-window clearance, duty-free import of capital goods, and simplified compliance for software exporters. Units can be set up anywhere in India.

Q3. What is STPI's role in the startup ecosystem?

A: STPI runs 24 Centres of Entrepreneurship (CoEs) in emerging tech domains, the NGIS scheme (Rs. 95.03 Cr, seed fund up to Rs. 25 lakh), SAYUJ (startup network), and specialised labs to support tech startups end-to-end.

Q4. How has STPI contributed to India's software exports?

A: STPI-registered units grew exports from Rs. 52 Cr (1992-93) to Rs. 10+ lakh Cr (2024-25), contributing ~50% of national SW exports and 2.3% of GDP.

Q5. What is NGIS?

A: Next Generation Incubation Scheme — a MeitY-entrusted program with Rs. 95.03 Cr budget targeting 300 startups with up to Rs. 25 lakh seed funding, operating across 12 Tier-II city incubation centres.

Q6. How does STPI support Tier-II/III cities?

A: 59 of STPI's 67 centres are in Tier-II/III cities, dispersing tech-driven entrepreneurship and IT industry growth beyond metro cities.

Q7. What emerging technologies is STPI focusing on?

A: AI/ML, IoT, Blockchain, AR/VR, Robotics, RPA, Data Science, FinTech, AgriTech, MedTech, ESDM, Cybersecurity, Drones, Industry 4.0, Gaming, and GIS.

Q8. What is Ananta?

A: Ananta is STPI's own cloud service platform providing cloud infrastructure to IT units registered with STPI.

Q9. What is SAYUJ?

A: SAYUJ is STPI's comprehensive startup community network and resource discovery platform, connecting startups, investors, mentors, and incubators.

Q10. What is STPI's vision?

A: To make India a Global IT Power and one of the world's largest generators and exporters of software.
