

HR Question Bank

Core Questions

1. Tell us about yourself.

Final 30-40 sec script (mentor snap: positive feedback)

"Thank you, Ma'am and Sir, for giving me this opportunity. I am Avanish, and I hail from Bareilly, Uttar Pradesh.

I graduated with a B.Tech in Computer Science and Engineering from KIIT, Bhubaneswar in 2024.

My professional journey started with a year-long internship as a Project Trainee at STMicroelectronics. Following that, I joined Berkadia, where I have been working as an Associate Software Engineer for nearly two years. In my current role, I focus heavily on software development, honing my hands-on skills in technologies like Java and the MERN stack.

I am now eager to bring my technical background and problem-solving experience to MSTC, and I look forward to the opportunity to contribute to your Systems division as a Management Trainee."

Resume-safe swap (use this if you don't want "Java grilling")

- Replace the line "Java and the MERN stack" with: "React, Node.js/Express, and TypeScript (MERN-style web development)"
- B.Tech CSE from KIIT with 9.60 CGPA
- 1.5+ years of software engineering experience
- Current role at Berkadia building production systems
- Interest in moving from private execution to PSU-scale digital public impact

2. Why do you want to leave the private sector for a PSU?

- Private sector gave technical depth and delivery discipline
- PSU gives long-horizon work with public impact
- MSTC sits at the intersection of e-governance, digital platforms, and sustainability

3. Why MSTC specifically?

- Technology-led PSU, not a purely administrative role
- E-commerce platform, EPR exchange, vehicle-scrapping ecosystem, travel platform
- Strong match with digital platform and workflow-software experience

4. Why should we hire you?

- strong academics
- production software experience
- ability to learn fast and work under pressure
- motivation to apply technical skills in public-sector systems

5. What are your strengths?

- structured problem solving
- ownership under deadlines
- ability to work across frontend, backend, and deployment
- clear communication

6. What is your weakness?

- tendency to over-prepare before acting
- improving by time-boxing and shipping in stages

7. Why are you suitable for a Management Trainee role?

- ability to learn quickly
- comfort with cross-functional work
- can combine technical execution with communication and process discipline

8. Are you comfortable relocating?

- answer directly and clearly
- Kolkata / transferability should not sound like a blocker

9. Where do you see yourself in 5 years?

- growing into a technical or process leadership role inside MSTC
- contributing to digital platform modernization

10. What do you know about MSTC?

- Miniratna Category-I CPSE under Ministry of Steel
- strong e-commerce and auction platform heritage
- new digital/public-infrastructure role through EPR and related platforms
- MMRPL and circular-economy presence through vehicle scrapping

Sensitive Framing Rules

- Never sound like you are joining only for job security.
- Never undersell your private-sector experience as irrelevant.
- Never claim expertise you do not have.
- Keep answers crisp and credible.
