

Emerging Technologies

Why This Matters Now

- HPCL includes a survey-style section on emerging technologies.
- These questions are usually breadth-heavy, not depth-heavy.

High-Yield Topics

- IaaS, PaaS, SaaS
- Virtualization and containerization
- Edge computing
- IoT architecture
- Big Data analytics
- AI / ML overview
- Data mining concepts
- Blockchain basics

Common Traps

- Mixing cloud service models with deployment models
- Treating virtualization and containers as the same thing
- Writing deep ML theory when only survey-level recall is needed

Done For Now Means

- one comparison table for cloud / virtualization / containers
- one one-page survey sheet for IoT, AI/ML, Big Data, blockchain
- 10 fast factual MCQs
